

STANDING SEAM WALKWAY BLOCK

Rooftop Walkway Block

- Economical solution for flat or sloping roofs
- Designed for all modern roof types including membrane, metal profile and standing seam roofs
- Self-draining channels on the bottom of the block ensure water will fully drain following the roof grade
- Improves OHS (Occupational Health & Safety) management
- Promotes safe job site for work crews
- Provides excellent traction - even when wet
- Protects roof membrane and reduces vibration to the surface
- Lighter weight of walkway reduces stress on the roof
- Easily installed by one person using mounting clips
- Made from 100% recycled rubber

- Create Walkway in series
- Fits between roof seams
- Secure with mounting clip (priced separately)

- 24" wide x 23" long x 2" high
- Weight: 34 lbs
- Quantity: 60 per skid
- Superior Drainage
